Declaration of conformity

GB Declaration of Conformity

We Grundfos declare under our sole responsibility that the products Unilift AP12, AP35 and AP50, to which this declaration relates, are in conformity with the Council directives on the approximation of the laws of the EC member states relating to:

- Machinery Directive (2006/42/EC).
Standards used: EN 809: 1998 and EN 60204-1: 2006.
- Low voltage Directive (2006/95/EC).
Standards used: EN 60335-1: 2002 and EN 60335-2-41: 2003.
- EMC Directive (2004/108/EC).

CZ Prohlášení o shodě

My firma Grundfos prohlašujeme na svou plnou odpovědnost, že výrobky Unilift AP12, AP35 a AP50, na něž se toto prohlášení vzťahuje, jsou v souladu s ustanoveními směrnice Rady pro sbližení právních předpisů členských států Evropského společenství v oblastech:

- Směrnice pro strojní zařízení (2006/42/ES).
Použité normy: EN 809: 1998 a EN 60204-1: 2006.
- Směrnice pro nízkonapěťové aplikace (2006/95/ES).
Použité normy: EN 60335-1: 2002 a EN 60335-2-41: 2003.
- Směrnice pro elektromagnetickou kompatibilitu (EMC) (2004/108/ES).

DE Konformitätserklärung

Wir, Grundfos, erklären in alleiniger Verantwortung, dass die Produkte Unilift AP12, AP35 und AP50, auf die sich diese Erklärung bezieht, mit den folgenden Richtlinien des Rates zur Angleichung der Rechtsvorschriften der EU-Mitgliedsstaaten übereinstimmen:

- Maschinenrichtlinie (2006/42/EG).
Normen, die verwendet wurden: EN 809: 1998 und EN 60204-1: 2006.
- Niederspannungsrichtlinie (2006/95/EG).
Normen, die verwendet wurden: EN 60335-1: 2002 und EN 60335-2-41: 2003.
- EMV-Richtlinie (2004/108/EG).

ES Declaración de Conformidad

Nosotros, Grundfos, declaramos bajo nuestra entera responsabilidad que los productos Unilift AP12, AP35 y AP50, a los cuales se refiere esta declaración, están conformes con las Directivas del Consejo en la aproximación de las leyes de los Estados Miembros del EM:

- Directiva de Maquinaria (2006/42/CE).
Normas aplicadas: EN 809: 1998 y EN 60204-1: 2006.
- Directiva de Baja Tensión (2006/95/CE).
Normas aplicadas: EN 60335-1: 2002 y EN 60335-2-41: 2003.
- Directiva EMC (2004/108/CE).

HR Izjava o uskladenosti

Mi, Grundfos, izjavljujemo pod vlastitim odgovornošću da je proizvod Unilift AP12, AP35 i AP50, na koji se ova izjava odnosi, u skladu s direktivama ovog Vijeća o uskladišavanju zakona država članica EU:

- Direktiva za strojeve (2006/42/EZ).
Koristene norme: EN 809: 1998 i EN 60204-1: 2006.
- Direktiva za niski napon (2006/95/EZ).
Koristene norme: EN 60335-1: 2002 i EN 60335-2-41: 2003.
- Direktiva za elektromagnetsku kompatibilnost (2004/108/EZ).

KZ Сәйкестік туралы мәлімдеме

Біз, Grundfos компаниясы, барлық жауапкершілікпен, осы мәлімдемеге кәткес болатын Unilift AP12, AP35 және AP50 бүйімдәрі ЕО мүші едерлерінің заң шыгарушы жарлықтарын үндестіру туралы мына Еуродад Кенесінің жарлықтарына сәйкес келеттіндігін мәлімдейміз:

- Механикалық құрылғылар (2006/42/EC).
Қолданылған стандарттар: EN 809: 1998 және EN 60204-1: 2006.
- Төмен Кернелі Жабдық (2006/95/EC).
Қолданылған стандарттар: EN 60335-1: 2002 және EN 60335-2-41: 2003.
- Электр магнитті үйлесімділік (2004/108/EC).

BG Декларация за съответствие

Ние, фирма Grundfos, заявяваме с пълна отговорност, че продуктите Unilift AP12, AP35 и AP50, за които се отнася настоящата декларация, отговарят на следните указания на Съвета за уеднаквяване на правните разпоредби на държавите членки на ЕС:

- Директива за машините (2006/42/EC).
Приложени стандарти: EN 809: 1998 и EN 60204-1: 2006.
- Директива за нисковoltови системи (2006/95/EC).
Приложени стандарти: EN 60335-1: 2002 и EN 60335-2-41: 2003.
- Директива за електромагнитна съвместимост (2004/108/EC).

DK Overensstemmelseserklæring

Vi, Grundfos, erklærer under ansvar at produkterne Unilift AP12, AP35 og AP50 som denne erklæring omhandler, er i overensstemmelse med de relevante direktiver om indbyrdes tilnærmet til EF-medlemsstaternes lovgivning:

- Maskindirektivet (2006/42/EF).
Anvendte standarder: EN 809: 1998 og EN 60204-1: 2006.
- Lavspændingsdirektivet (2006/95/EF).
Anvendte standarder: EN 60335-1: 2002 og EN 60335-2-41: 2003.
- EMC-direktivet (2004/108/EF).

GR Δήλωση Συμμόρφωσης

Εμείς, η Grundfos, δηλώνουμε με αποκλειστικά δική μας ευθύνη ότι τα προϊόντα Unilift AP12, AP35 και AP50 στα οποία αναφέρεται η παρούσα δήλωση, συμμορφώνονται με τις εξής Οδηγίες του Συμβουλίου περί προστίχων των νομοθεσιών των κρατών μελών της ΕΕ:

- Οδηγία για μηχανήματα (2006/42/EC).
Πρότυπα που χρησιμοποιήθηκαν: EN 809: 1998 και EN 60204-1: 2006.
- Οδηγία χαμηλής τάσης (2006/95/EC).
Πρότυπα που χρησιμοποιήθηκαν: EN 60335-1: 2002 και EN 60335-2-41: 2003.
- Οδηγία Ηλεκτρομαγνητικής Συμβατότητας (EMC) (2004/108/EC).

FR Déclaration de Conformité

Nous, Grundfos, déclarons sous notre seule responsabilité, que les produits Unilift AP12, AP35 et AP50, auxquels se réfère cette déclaration, sont conformes aux Directives du Conseil concernant le rapprochement des législations des Etats membres CE relatives aux normes énoncées ci-dessous :

- Directive Machines (2006/42/CE).
Normes utilisées : EN 809: 1998 et EN 60204-1: 2006.
- Directive Basse Tension (2006/95/CE).
Normes utilisées : EN 60335-1 : 2002 et EN 60335-2-41 : 2003.
- Directive Compatibilité Electromagnétique CEM (2004/108/CE).

IT Dichiarazione di Conformità

Grundfos dichiara sotto la sua esclusiva responsabilità che i prodotti Unilift AP12, AP35 e AP50, ai quali si riferisce questa dichiarazione, sono conformi alle seguenti direttive del Consiglio riguardanti il riconoscimento delle legislazioni degli Stati membri CE:

- Direttiva Macchine (2006/42/CE).
Norme applicate: EN 809: 1998 e EN 60204-1: 2006.
- Direttiva Bassa Tensione (2006/95/CE).
Norme applicate: EN 60335-1: 2002 e EN 60335-2-41: 2003.
- Direttiva EMC (2004/108/CE).

HU Megfelelőségi nyilatkozat

Mi, Grundfos, egyedüli felelősséggel kijelentjük, hogy a Unilift AP12, AP35 és AP50 termékek, amelyekre jelen nyilatkozat vonatkozik, megfelelnek az Európai Unió tagállamainak jogi irányelvétől összhangban tanács aláírásainak:

- Gépek (2006/42/EK).
Alkalmasított szabványok: EN 809: 1998 és EN 60204-1: 2006.
- Kisfeszültségű Direktíva (2006/95/EK).
Alkalmasított szabványok: EN 60335-1: 2002 és EN 60335-2-41: 2003.
- EMC Direktíva (2004/108/EK).

NL Overeenkomstigheidsverklaring

Wij, Grundfos, verklaren geheel onder eigen verantwoordelijkheid dat de producten Unilift AP12, AP35 en AP50 waarop deze verklaring betrekking heeft, in overeenstemming zijn met de Richtlijnen van de Raad in zake de onderlinge aanpassing van de wetgeving van de EG Lidstaten betreffende:

- Machine Richtlijn (2006/42/EC).
- Gebruikte normen: EN 809: 1998 en EN 60204-1: 2006.
- Laagspannings Richtlijn (2006/95/EC).
- Gebruikte normen: EN 60335-1: 2002 en EN 60335-2-41: 2003.
- EMC Richtlijn (2004/108/EC).

PT Declaração de Conformidade

A Grundfos declara sob sua única responsabilidade que os produtos Unilift AP12, AP35 e AP50, aos quais diz respeito esta declaração, estão em conformidade com as seguintes Directivas do Conselho sobre a aproximação das legislações dos Estados Membros da CE:

- Directiva Máquinas (2006/42/CE).
- Normas utilizadas: EN 809: 1998 e EN 60204-1: 2006.
- Directiva Baixa Tensão (2006/95/CE).
- Normas utilizadas: EN 60335-1: 2002 e EN 60335-2-41: 2003.
- Directiva EMC (compatibilidade electromagnética) (2004/108/CE).

RO Declarație de Conformitate

Noi, Grundfos, declarăm pe propria răspundere că produsele Unilift AP12, AP35 și AP50, la care se referă această declarație, sunt în conformitate cu aceste Directive de Consiliu asupra armonizării legilor Statelor Membre CE:

- Directiva Utilaje (2006/42/CE).
- Standarde utilizate: EN 809: 1998 și EN 60204-1: 2006.
- Directiva Tensiune Joasă (2006/95/CE).
- Standarde utilizate: EN 60335-1: 2002 și EN 60335-2-41: 2003.
- Directiva EMC (2004/108/CE).

SI Izjava o skladnosti

V Grundfos s polno odgovornostjo izjavljamo, da so naši izdelki Unilift AP12, AP35 in AP50, na katere se ta izjava nanaša, v skladu z naslednjimi direktivami Sveta o približevanju zakonodaje za izenačevanje pravnih predpisov držav članic ES:

- Direktiva o strojih (2006/42/ES).
- Uporabljeni normi: EN 809: 1998 in EN 60204-1: 2006.
- Direktiva o nizki napetosti (2006/95/ES).
- Uporabljeni normi: EN 60335-1: 2002 in EN 60335-2-41: 2003.
- Direktiva o elektromagnetni združljivosti (EMC) (2004/108/ES).

FI Vaatimustenmukaisuusvakuutus

Me, Grundfos, vakuuttamme omalla vastuullamme, että tuotteet Unilift AP12, AP35 ja AP50 ja tåta vakuutus koskee, mitä EY:n jäsenvaltioiden lainsaädännöön yhdenmukaistamiseen tähän tien Euroopan neuvoston direktiivien vaatimusten mukaisuus seuraavasti:

- Kondirektiivi (2006/42/EY).
- Sovellettavat standardit: EN 809: 1998 ja EN 60204-1: 2006.
- Pienjäätöndirektiivi (2006/95/EY).
- Sovellettavat standardit: EN 60335-1: 2002 ja EN 60335-2-41: 2003.
- EMC-direktiivi (2004/108/EY).

TR Uygunluk Bildirgesi

Grundfos olarak bu beyannameyi konu olan Unilift AP12, AP35 ve AP50 ürünlerinin, AB Üyesi Ülkelerin kanunlarını birbirine yaklaştırma üzerine Konsey Direktifleriyle uyumlu olduğunun yalnızca bizim sorumluluğumuz altında olduğunu beyan ederiz:

- Makineler Yönetmeliği (2006/42/EC).
- Kullanılan standartlar: EN 809: 1998 ve EN 60204-1: 2006.
- Düşük Voltaj Yönetmeliği (2006/95/EC).
- Kullanılan standartlar: EN 60335-1: 2002 ve EN 60335-2-41: 2003.
- EMC Direktifi (2004/108/EC).

PL Deklaracja zgodności

My, Grundfos, oświadczamy z pełną odpowiedzialnością, że nasze wyroby Unilift AP12, AP35 oraz AP50, których deklaracja niniejsza dotyczy, są zgodne z następującymi wytycznymi Rady d/s ujednolicenia przepisów prawnych krajów członkowskich WE:

- Dyrektywa Maszynowa (2006/42/WE).
- Zastosowane normy: EN 809: 1998 oraz EN 60204-1: 2006.
- Dyrektywa Niskonapięciowa (LVD) (2006/95/WE).
- Zastosowane normy: EN 60335-1: 2002 oraz EN 60335-2-41: 2003.
- Dyrektywa EMC (2004/108/WE).

RU Декларация о соответствии

Мы, компания Grundfos, со всей ответственностью заявляем, что изделия Unilift AP12, AP35 и AP50, к которым относится настоящая декларация, соответствуют следующим Директивам Совета Европоюза об унификации законодательных предписаний стран-членов EC:

- Механические устройства (2006/42/EC).
- Применившиеся стандарты: EN 809: 1998 и EN 60204-1: 2006.
- Низковольтное оборудование (2006/95/EC).
- Применившиеся стандарты: EN 60335-1: 2002 и EN 60335-2-41: 2003.
- Электромагнитная совместимость (2004/108/EC).

SK Prehlásenie o konformite

My firma Grundfos prehlasujeme na svoju plnú zodpovednosť, že výrobky Unilift AP12, AP35 a AP50, na ktoré sa tento prehlásenie vzťahuje, sú v súlade s ustanovením smerníc Rady pre zblíženie právnych predpisov členských štátov Európskeho spoločenstva v oblastiach:

- Smernica pre strojové zariadenie (2006/42/EC).
- Použité normy: EN 809: 1998 a EN 60204-1: 2006.
- Smernica pre nízkonapäťové aplikácie (2006/95/EC).
- Použité normy: EN 60335-1: 2002 a EN 60335-2-41: 2003.
- Smernica pre elektromagnetickú kompatibilitu (2004/108/EC).

RS Deklaracija o konformitetu

Mi, Grundfos, izjavljujemo pod vlastitom odgovornošću da je proizvod Unilift AP12, AP35 i AP50, na koji se ova izjava odnosi, u skladu sa direktivama Saveta za usklađivanje zakona država članica EU:

- Direktiva za mašine (2006/42/EC).
- Korisčeni standardi: EN 809: 1998 i EN 60204-1: 2006.
- Direktiva niskog napona (2006/95/EC).
- Korisčeni standardi: EN 60335-1: 2002 i EN 60335-2-41: 2003.
- EMC direktiva (2004/108/EC).

SE Försäkran om överensstämmelse

Vi, Grundfos, försäkrar under ansvar att produkterna Unilift AP12, AP35 och AP50, som omfattas av denna försäkran, är i överensstämmelse med rådets direktiv om inbördes närmande till EU-medlemsstaternas lagstiftning, avseende:

- Maskindirektivet (2006/42/EG).
- Tillämpade standarder: EN 809: 1998 och EN 60204-1: 2006.
- Lågspänningsdirektivet (2006/95/EG).
- Tillämpade standarder: EN 60335-1: 2002 och EN 60335-2-41: 2003.
- EMC-direktivet (2004/108/EG).

Warning

Before beginning installation procedures, these installation and operating instructions should be studied carefully. The installation and operation should also be in accordance with local regulations and accepted codes of good practice.

Warning

The use of this product requires experience with and knowledge of the product.

Persons with reduced physical, sensory or mental capabilities must not use this product, unless they are under supervision or have been instructed in the use of the product by a person responsible for their safety.

Children must not use or play with this product.

1. Symbols used in this document

Warning

If these safety instructions are not observed, it may result in personal injury!

Caution

If these safety instructions are not observed, it may result in malfunction or damage to the equipment!

Note

Notes or instructions that make the job easier and ensure safe operation.

2. General description

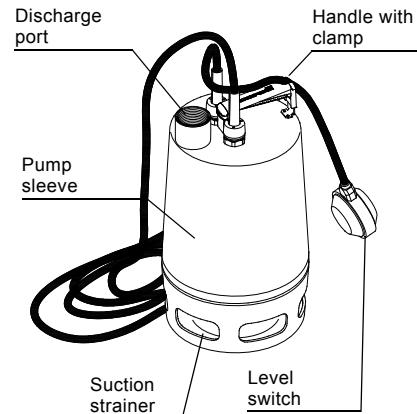

Fig. 1

2.1 Applications

The Grundfos Unilift AP pump is a single-stage submersible pump designed for the pumping of waste water.

The pump is capable of pumping water which contains a limited quantity of solids, however not stones and similar materials, without being blocked or damaged.

The pump is available for automatic as well as manual operation and can be installed in a permanent installation or used as a portable pump.

The pump is suitable for:

Applications	AP12	AP35	AP50
Groundwater lowering	•	•	•
Pumping in drainage pits	•	•	•
Pumping in surface water pits with inflow from roof gutters, shafts, tunnels, etc.	•	•	•
Emptying of ponds, tanks, etc.	•	•	•
Pumping of fibre-containing waste water from laundries and industries	•	•	
Pumping of surface water from septic tanks and sludge treating systems	•	•	
Pumping of domestic waste water without discharge from water closets	•	•	
Pumping of domestic waste water with discharge from water closets		•	
Maximum particle size [mm]	12	35	50

Warning

The pump must not be used in or at swimming pools, garden ponds, etc. when there are persons in the water.

Incorrect application of the pump (e.g. resulting in blocking of the pump) and wear are not covered by the warranty.

2.2 Storage and operating conditions

Storage temperature: Down to –30 °C.

Minimum liquid temperature: 0 °C.

Maximum liquid temperature: +55 °C continuously.
Up to +70 °C for periods not exceeding 3 minutes. Then the pump must cool down.

Installation depth: Maximum 10 metres below liquid level.

pH value: Between 4 and 10.

Density: Maximum 1100 kg/m³.

Viscosity: Maximum 10 mm²/s.

Technical data: See pump nameplate.

2.3 Sound pressure level

The sound pressure level of the pump is lower than the limiting values stated in the EC Council Directive 2006/42/EC relating to machinery.

3. Safety

Warning

Pump installation in wells must be carried out by specially trained persons.

4. Electrical connection

Depending on local regulations, a pump with 10 metres of mains cable must be used if the pump is used as a portable pump for different applications.

Caution

The electrical connection should be carried out in accordance with local regulations.

The pump must be connected to an external mains switch. If the pump is not installed close to the switch, this must be of a lockable type.

The operating voltage and frequency are marked on the pump nameplate. Please make sure that the motor is suitable for the electricity supply on which it will be used.

Warning

As a precaution, the pump must be connected to a socket with earth connection. The permanent installation must be fitted with an earth leakage circuit breaker (ELCB) with a tripping current < 30 mA.

Three-phase pumps must be connected to an external motor starter with differential release and with a minimum contact gap of 3 mm. The set nominal current of the motor starter must correspond to the electrical data marked on the pump nameplate.

If a level switch is connected to a three-phase pump, the motor starter must be magnetically operated.

Single-phase pumps incorporate thermal overload protection and require no additional motor protection.

Warning

If the motor is overloaded, it will stop automatically. When it has cooled to normal temperature, it will restart automatically.

4.1 Checking of direction of rotation

(Three-phase pumps only)

The direction of rotation should be checked every time the pump is connected to a new installation.

Check the direction of rotation as follows:

1. Position the pump so that the impeller can be observed.
2. Start the pump for a short period.
3. Observe the rotation of the impeller. The correct direction of rotation is indicated by an arrow on the suction strainer (clockwise when seen from the bottom). If the impeller rotates in the wrong direction, reverse the direction of rotation by interchanging two of the phases to the motor.

If the pump is connected to a piping system, the direction of rotation can be checked as follows:

1. Start the pump and check the quantity of water or the discharge pressure.
2. Stop the pump and interchange two of the phases to the motor.
3. Start the pump and check the quantity of water or the discharge pressure.
4. Stop the pump.

Compare the results taken under points 1 and 3. The connection which gives the larger quantity of water or the higher pressure is the correct direction of rotation.

5. Installation

Warning

The installation of the pump must be carried out by specially trained persons.

Unilift AP35 and AP50: Care must be taken to ensure that persons cannot come into contact with the pump impeller.

5.1 Connection

For permanent installation, it is recommended to fit a union, a non-return valve and an isolating valve in the discharge pipe.

If the pump is installed in a pit with a minimum free cable length of 100 mm, see fig. 6, the minimum pit dimensions must be as shown in fig. 2.

Furthermore, the pit should be dimensioned according to the relation between the water flow to the pit and the pump capacity.

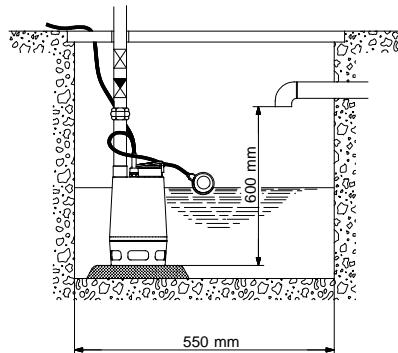

Fig. 2

5.2 Pump location

The pump can be used in vertical or horizontal position with the discharge port as the highest point of the pump, see fig. 3.

During operation, the suction strainer must always be completely covered by the pumped liquid.

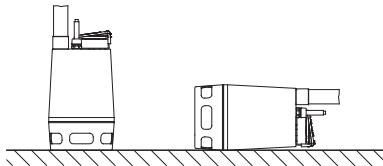

Fig. 3

5.3 Setting of level switch

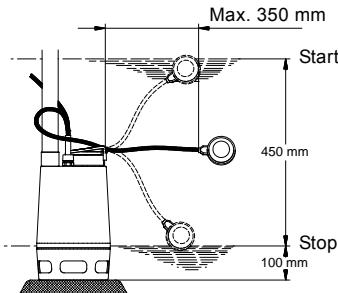

For pumps supplied with a level switch, the difference in level between start and stop can be set by adjusting the free cable between the level switch and the pump handle.

The longer the length of free cable, the larger the difference in level between start and stop.

Maximum length of free cable: 350 mm, see fig. 5.

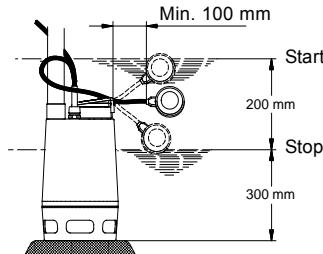

Minimum length of free cable: 100 mm, see fig. 6.

The stop level must be above the suction strainer to prevent the pump from taking in air.

TM00 2924 1697

Fig. 5

TM00 2926 1697

Fig. 6

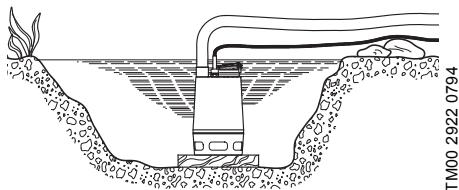

Fig. 4

6. Start-up

Caution

Before starting the pump, check that the suction strainer is fitted to the pump and submerged in the pumped liquid.

Open the isolating valve, if fitted, and check the level switch setting.

Note

The pump may be run briefly to check the direction of rotation without being submerged in the pumped liquid.

7. Maintenance and service

Warning

Before starting work on the pump, make sure that the electricity supply to the pump has been switched off and that it cannot be accidentally switched on.

Before carrying out maintenance and service, it must be ensured that the pump has been thoroughly flushed with clean water. Rinse the pump parts in water after dismantling.

Check the pump and replace the oil once a year. If the pump is used for pumping liquids containing abrasive particles or it is operating continuously, the pump must be checked at shorter intervals.

In the case of long operating time or continuous operation, the oil should be replaced as follows:

Liquid temperature	The oil should be replaced after
20 °C	4500 operating hours
40 °C	3000 operating hours
55 °C	1500 operating hours

Warning

Out of consideration for the personal safety and health, this work must be carried out by specially trained persons. Furthermore, all rules and regulations covering safety, health and environment must be observed. During dismantling, caution should be exercised as there will be access to sharp edges, etc. which may cut.

The pump contains approx. 60 ml non-poisonous oil. Used oil must be disposed of in accordance with local regulations.

If the drained oil contains water or other impurities, the shaft seal should be replaced.

7.1 Pump construction

The construction of the pump will appear from the table below and figs. A, B and C at the end of these instructions.

Pos.	Description

7.2 Contaminated pumps

Caution

If a pump has been used for a liquid which is injurious to health or toxic, the pump will be classified as contaminated.

If Grundfos is requested to service the pump, Grundfos must be contacted with details about the pumped liquid, etc. before the pump is returned for service. Otherwise Grundfos can refuse to accept the pump for service.

Possible costs of returning the pump are paid by the customer.

However, any application for service (no matter to whom it may be made) must include details about the pumped liquid if the pump has been used for liquids which are injurious to health or toxic.

8. Fault finding chart

Fault	Cause	Remedy
1. Motor does not start.	a) No electricity supply. b) Motor switched off by level switch. c) Fuses are blown. d) Motor protection/thermal relay has tripped out. e) Impeller blocked by impurities. f) Short-circuit in cable or motor.	Connect the electricity supply. Adjust/replace the level switch. Replace fuses. Wait until the motor protection trips in again/reset the relay. Clean the impeller. Replace the defective part.
2. Motor protection/thermal relay trips out after short time of operation.	a) Temperature of pumped liquid too high. b) Impeller blocked or partly blocked by impurities. c) Phase failure. d) Voltage too low. e) Overload setting of the motor starter too low. f) Incorrect direction of rotation. See section 4.1 <i>Checking of direction of rotation.</i>	Use another pump type. Clean the pump. Call an electrician. Call an electrician. Adjust the setting. Reverse the direction of rotation.
3. Pump runs constantly or gives insufficient water.	a) Pump partly blocked by impurities. b) Discharge pipe or valve partly blocked by impurities. c) Impeller not properly fixed to the shaft. d) Incorrect direction of rotation. See section 4.1 <i>Checking of direction of rotation.</i> e) Incorrect setting of level switch. f) Pump too small for the application. g) Impeller worn.	Clean the pump. Clean the discharge pipe. Tighten the impeller. Reverse the direction of rotation. Adjust the level switch. Replace the pump. Replace the impeller.
4. Pump runs but gives no water.	a) Pump blocked by impurities. b) Discharge pipe or non-return valve blocked by impurities. c) Impeller not properly fixed to the shaft. d) Air in pump. e) Liquid level too low. The suction strainer is not completely submerged in the pumped liquid. f) Level switch does not move freely.	Clean the pump. Clean the discharge pipe. Tighten the impeller. Vent the pump and the discharge pipe. Submerge the pump in the liquid or adjust the level switch. Make the level switch move freely.

9. Disposal

Disposal of this product or parts of it must be carried out according to the following guidelines:

1. Use the local public or private waste collection service.
2. In case such waste collection service does not exist or cannot handle the materials used in the product, please deliver the product or any hazardous materials from it to your nearest Grundfos company or service workshop.

Subject to alterations.
